SUMMARY

Junior Frontend Developer with hands-on experience in building web applications using React.js from university projects and internships. Familiar with connecting user interfaces to back-end services via APIs and handling data display. With a background in database programming, I have a fundamental understanding of data structures and data flow, which helps in collaborating with back-end teams. Eager to improve technical skills and learn best practices in a professional environment.

TECHNICAL SKILLS

TOOLS

MySQL	HTML / CSS / JavaScript	Git / GitHub	Postman
SQL Queries	React.js	Visual Studio Code	Sequelize CLI
Database Design	Node.js	MySQL Workbench	
ER-Diagram	API Integration	Sequelize CLI	

PROFESSIONAL EXPERIENCE

CSLogbook WebApplication (Information System)

JUL 2024 - 2026

- Internship System for Computer Science Students, KMUTNB
- Special Project System for Computer Science Students, KMUTNB
